optimummedical®

As a trusted and reliable medical device manufacturer, **Optimum Medical** have many years' experience creating highly effective products that are used by clinicians all over the world.

Our range of high-quality Infection Prevention products have been thoughtfully developed to reduce infection rates across both healthcare and commercial business environments.

To date our Infection Prevention range has been supplied around the world to hundreds of organisations, including the NHS, local authorities, and several international governments.

*"I just wanted to write and say how grateful I am for the efforts your company, **Optimum Medical**, has gone to support the UK effort to purchase and manufacture personal protection equipment. The contributions your company has made are invaluable at a time of unprecedented, global demand for this equipment, and is helping the UK to secure what we need to protect those on the front line that protect us during this international crisis."*

- Matt Hancock, UK Government Health Minister

optipro.™

pre-injection isopropyl wipes

Disposable, individually wrapped wipes for pre-injection.

To ensure the safety of patients and clinicians, **OptiPro Pre-injection Wipes** make infection control and prevention simple. Each individually wrapped wipe comes in an easy-tear sachet, and is designed to fall from its packaging, making it ideal for maintaining aseptic technique when preparing a sterile area.

70% ALCOHOL

- ✓ Wipe size: 60mm x 30mm

OptiPro - Pre-injection Wipe (70% Isopropyl)

PR CODE	PR NAME	INNER BOX	OUTER CASE
1102	OptiPro pre-injection wipe	Box of 100 wipes	Case of 10000 wipes

optipro.™

universal alcohol wipes

Reduce cross contamination with our **OptiPro Universal Alcohol Wipes**, designed to leave surfaces and equipment sanitised and disinfected. These disposable, large wipes are soft, strong and have been developed with 75% alcohol (ethanol) effective for fast and effective cleaning.

75% ALCOHOL

- ✓ For surface and equipment cleansing and disinfection.
- ✓ 99.9% effective against germs.
- ✓ Easy to reseal pouch to maintain moisture.
- ✓ Wipe size: 150mm x 200mm.

optipro.™

surgical masks

OptiPro Surgical Masks effectively cover the user's nose and mouth in order to reduce the incidence of cross-infection in clinical environments.

- ✓ Adhere to European Standard EN 14683:2019.
- ✓ Features a protective 3-ply design. This creates an effective barrier, providing superior levels of protection.
- ✓ Stops microbes from entering or exiting the mask, thanks to a melt-blown polymer material which provides a highly effective filter.
- ✓ Comfortable yet secure. The latex-free, elasticated loops slide easily over the ears and securely hold the mask against the user's face. Soft-touch fabric helps to reduce the risk of pressure damage behind the user's ears.
- ✓ Adjustable nose strip for added security.
- ✓ The pleat design allows the user to expand the mask and fully cover the area from nose to chin.

3 LAYERS FOR OPTIMUM PROTECTION

- 1 Splash resistant non-woven fabric
- 2 High density filter layer
- 3 Direct contact skin layer

optipro.™

particulate respirator half-mask

The OptiPro Particulate Respirator Half-Mask is an FFP2 face mask, designed to provide effective filtration of harmful substances and reduce the user's risk of infection.

- ✓ **Filters Harmful Substances -**
The non-woven protective layers filter over 95% of airborne particles including dust, bacteria, smoke, pollen and other pollutants.
- ✓ **Comfortable to Wear -**
The contoured shape ensures a secure fit for increased comfort and confidence. Each mask is made from highly effective soft fabrics, designed for use without discomfort.
- ✓ **High Filtration Capacity -**
OptiPro Particulate Respirator Half-masks have a high filtration capacity whilst retaining low breathing resistance, allowing for easy and comfortable breathing.

OptiPro Particulate Respirator Half-Masks adhere to EN 149:2001+A1:2009, FFP2 standards.

optipro.™

face shield

The **OptiPro Face Shield** has been designed to provide superior face and eye protection. Featuring a lightweight, disposable design with an adjustable head band strap for user comfort, **OptiPro Face Shields** are fully compliant with British Standards EN 166:2002 and offer high levels of protection against droplets, dust or splashes. The clear visor is also fog resistant for unimpeded vision whilst in use.

- ✓ Compliant with EN 166:2002.
- ✓ Features contoured foam head band for a comfortable fit.
- ✓ Droplet, splash, fog and dust resistant.
- ✓ Lightweight design.
