

# optipre.™

sporicidal disinfectant

Disinfectants are changing and we're leading the charge.

**OptiPre** Sporicidal Disinfectant is a new kind of disinfectant, harnessing the immense cleaning and disinfecting power of Chlorine Dioxide (ClO<sub>2</sub>).

Delivering exceptional levels of cleaning and germ-killing power in a unique formulation of 99.6% water.

● Clean ◆ Disinfect ■ Protect

## Reducing our plastics, one trigger at a time

Let us know how many trigger sprayers you'll need, and we'll pop them in the box, free of charge. **OptiPre** Trigger Sprayers are reusable and compatible with both our 500ml and 1000ml bottles.

### ● Clean

using **OptiPre** Sporicidal Disinfectant to remove even invisible contaminants.

### ◆ Disinfect

using **OptiPre** Sporicidal Disinfectant, to destroy even bacterial DNA, preventing the bacteria from developing resistance.

### ■ Protect

against infection using **OptiPre** Sporicidal Disinfectant, by preventing the growth of biofilm and other harmful microorganisms.

Each bottle of **OptiPre** Sporicidal Disinfectant is supplied sealed with a screw cap to prolong the shelf life of the solution.
